

# USER MANUAL – HOW SNAP ROTATIONS TO BLOCKS

**TARGET AUDIENCE: ADMINISTRATORS**

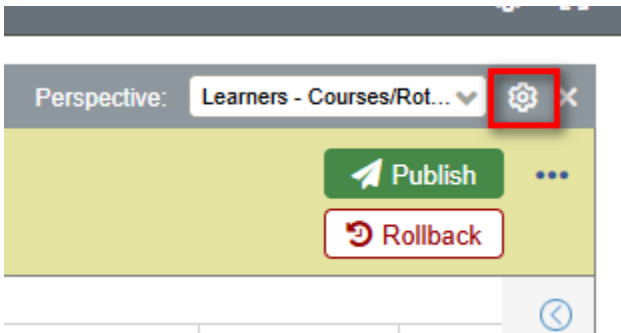

---

Updated November 19, 2024

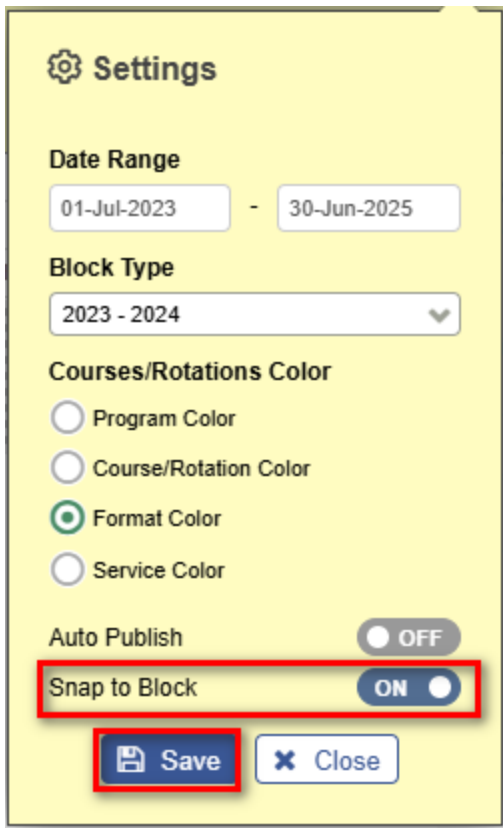

## ROTATION SCHEDULE- SNAP ROTATIONS TO BLOCKS

If you want a rotation to snap to a specific block in the rotation schedule when you use the drag and drop functionality from the course/rotation/locations right hand side menu, then you need to...

1. Go to settings in your schedule.

2. Make sure "Snap to Block" is on and then select save.

## QUESTIONS?

If you have any questions or difficulties with this process, please submit them through our ticketing system.
